BALUSTRADE

MAKING BALUSTRADE EASY

Making Balustrade Easy

SWR Balustrade was launched in 2006 with the vision of 'Making Balustrade Easy' by providing a full design, supply, fabrication and installation service for our customers.

From large commercial projects to family homes, our team of experts are trained to take the pressure off your project. What's more, all our balustrade systems meet the relevant industry standards for your complete peace of mind.

Because when it comes to safety, quality and service....
WE GO BEYOND

Homeowner Guarantee

Our transformational products are supported by our 'Homeowner Guarantee', so you can be the envy of your street, impress your friends and add value to your home without any worries.

We Go Beyond For Our Customers

Yes, we are highly knowledgeable, with decades of experience and expertise in everything we do. But it's in our DNA to deliver service with honesty, integrity and a smile.

We benchmark ourselves against industry leading companies and are extremely proud of our best in class NPS score of 96. An indicator that we are serious about our customer service.

We Go Beyond For Our People

PEOPLE AT OUR CORE is the cornerstone of our values, and an important part of everything we do.

We train our fitters in-house to the highest standards, which means no work carried out in your home is out-sourced to external agencies.

From first contact to final installation, every person you meet is a valued member of the SWR team.

"Reaching the IIP Gold Standard is an achievement which puts SWR in the top 12% of IIP organisations, and one that the whole team should take significant pride in."

Richard Budd - Investors In People (IIP) Assessor

We Go Beyond For Our Community

Supporting our local community is very important to us. For example, we support a local school (Astley Cooper) through a Pre-Apprentice Programme. A programme to help students into the work place through real world experience.

We also like to do our bit for local charities throughout the year. Such as gruelling 130 mile bike rides in support of the Hospice of St Francis.

Glass Modular System

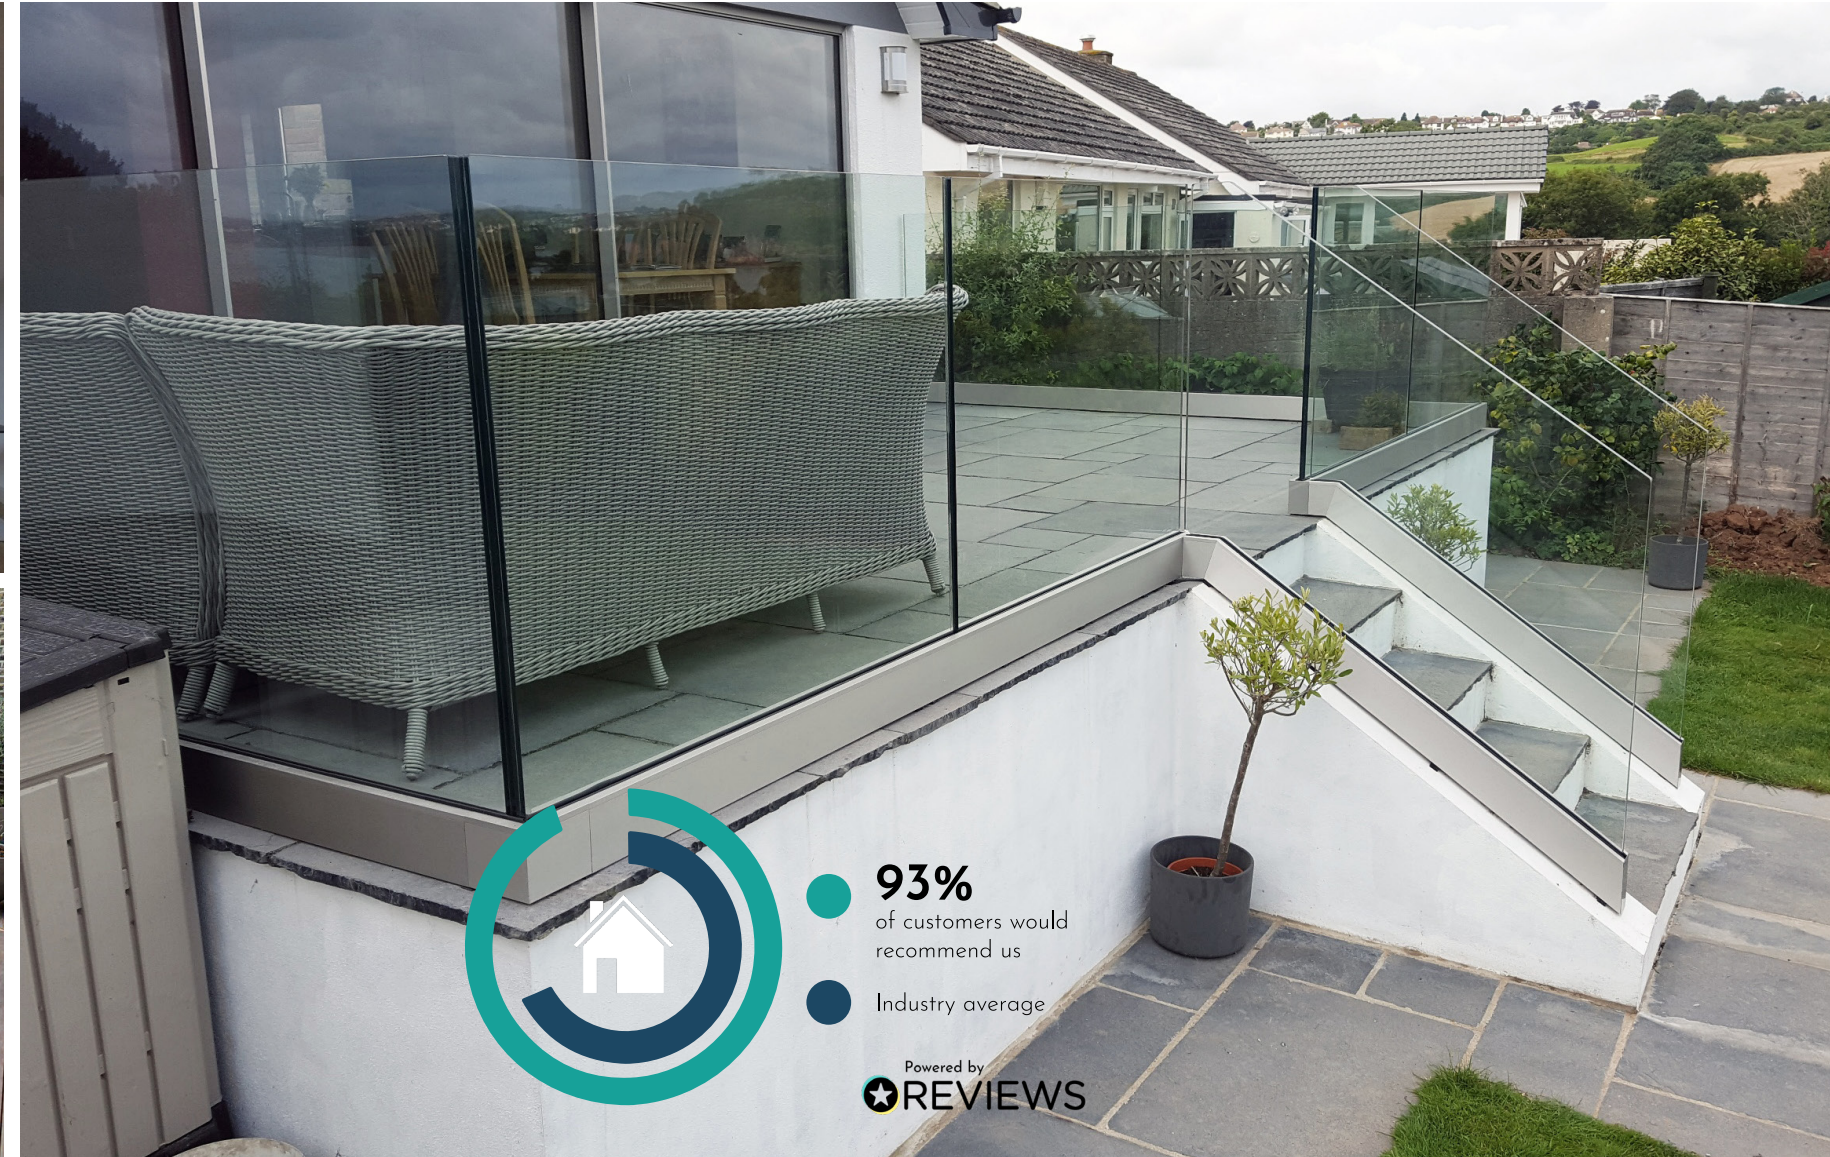

For contemporary appeal, choose a glass modular system. The eye-catching design suits any home while the marine-grade stainless steel construction will last a lifetime.

Benefit from a satin finish and build the ideal balustrade system for your home. We can also supply the type of glass you need - whether it's toughened, heat soaked or laminated.

Buy individual components from our e-commerce store or as a complete system ready to install.

- Modern look
- Fully tested system
- Available with top handrail
- Flexible, modular design
- Easy to maintain

Glass Channel System

Looking for an aesthetically pleasing, independently certified and highly durable system for your home? Look no further than our frameless glass channels.

Suitable for the interior or exterior, they're engineered to precise dimensions and tested to relevant safety standards. Choose from four different finishes: plain aluminium, stainless-steel effect, mill finish or colour coating. Your glass channel system also comes in any RAL colour.

Combine with round or square handrails for an even more distinctive look.

- Minimal & modern look
- Highly durable
- Quick & easy installation
- Available in various finishes
- Multiple handrail options

Wire Infill - Horizontal & Vertical

Combine wire rope with stainless-steel posts for a clean, modern feel to your balustrade.

Our wire infill systems are modular too, and fully customisable to suit a range of surface gradients and locations. It's also versatile enough for use on outdoor residential areas such as low-level decking, patio and more.

Choose wire rope in a range of finishes to create something unique to your project.

- Low maintenance
- Fully tested system
- Indoor & outdoor applications
- Highly durable

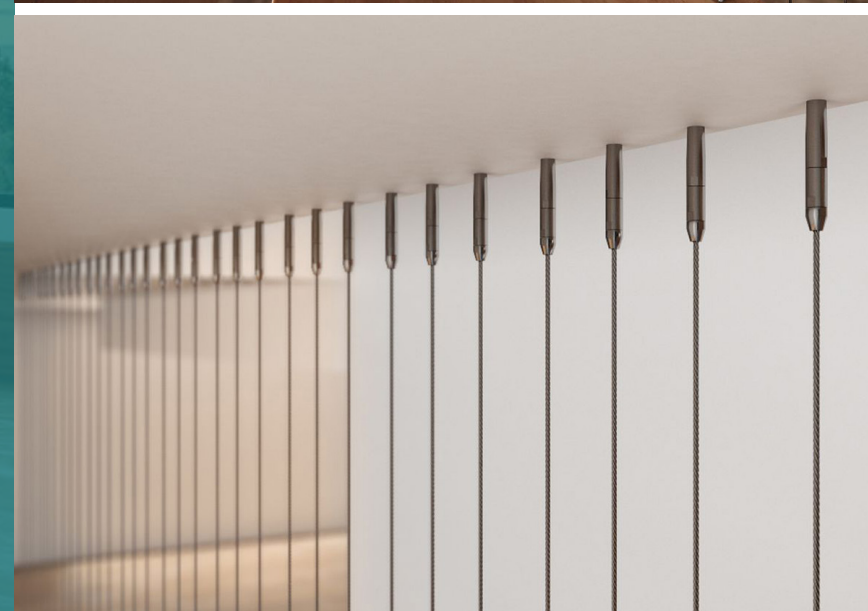

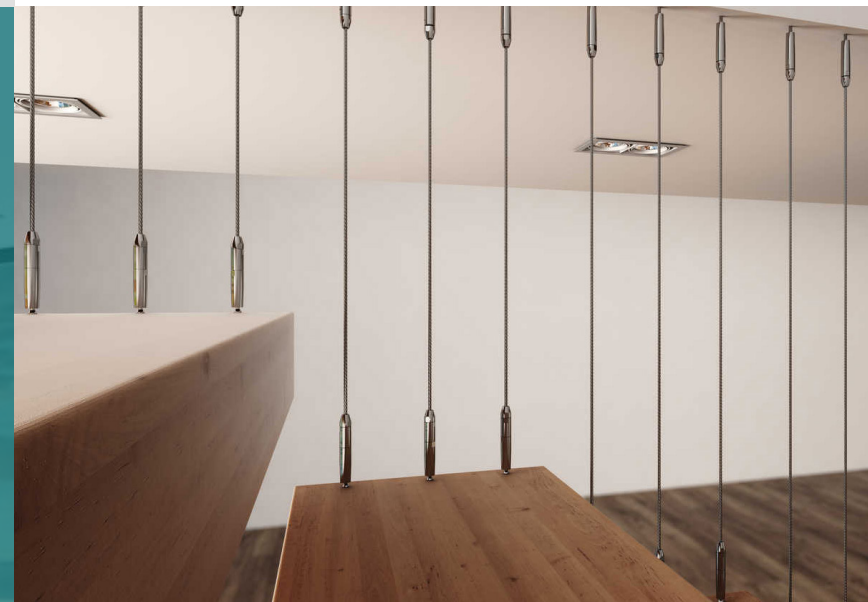

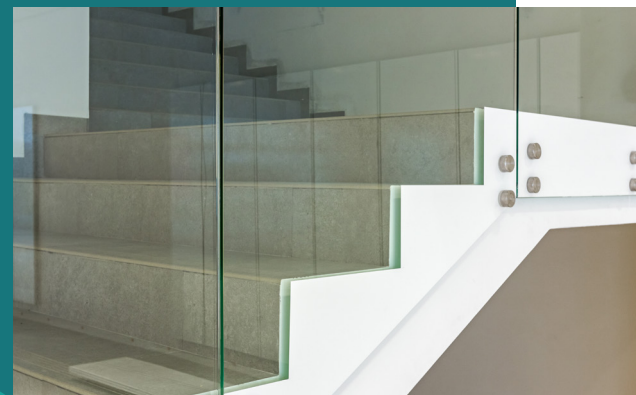

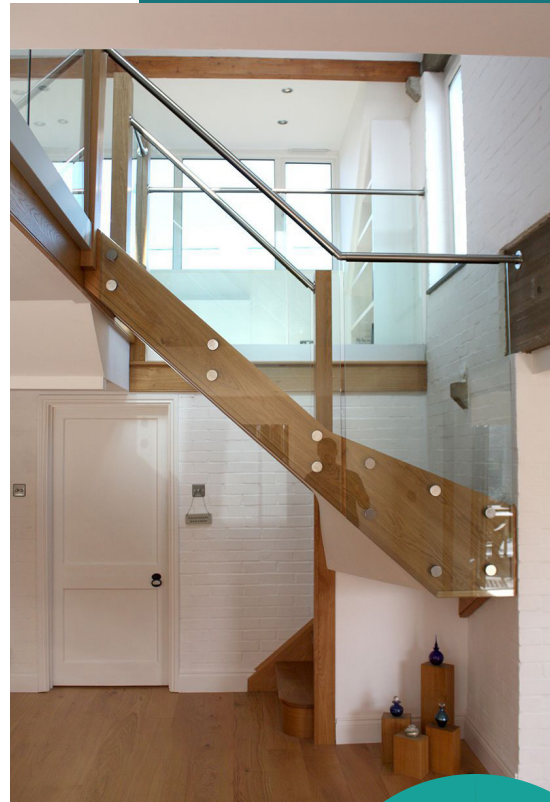

Vertical Wire Wall

A vertical wire rope wall is a great way to add a modern touch to indoor or outdoor locations.

Our wire rope uses easy-to-fit terminals, suitable for a number of different surfaces. From interior wooden staircases to outdoor concrete, you'll find our terminals more than up to the job.

- Low maintenance
- Made of marine grade stainless steel
- Terminals suitable for a range of surfaces
- For indoor & outdoor use

Glass Adapters

The versatility of glass adapters allows glass balustrade to be installed in any location - from Juliet Balconies and staircases to outdoor terraces.

Adapters are used to mount glass directly to a vertical surface via holes in the glass pane. This means no need for base plates and just four adapters for every 1.5m of glass. A cost-effective way of achieving a modern look!

- Easy to install
- AISI 304 & 316 grade stainless steel
- Fully tested system
- For indoor & outdoor applications

well suited to all development styles

Non-invasive
understated design

Glass Spigots

Enjoy the view without interruption! Not only are glass spigots non-invasive but their understated design won't compromise the rest of your outdoor space.

A highly versatile balustrade system, five clamp designs and a range of slotted handrails give you options for further customisation. Frameless glass panes finish the ultra-modern look.

Add contemporary style to homes or extra safety to commercial properties. From swimming pools to raised decking, glass spigots are a perfect blend of form and function.

- Modern, understated look
- Available with toughened & laminated glass
- Satin finish
- Easy to maintain
- Fully tested system

Excellent product and very good people to deal with. I'd recommend this company to everyone looking to have a quality product and service.

Juliet Balconies

Secure your home with the ultimate fall protection system. Practically invisible, our Juliet Balconies are incredibly safe and ideal for any type of architecture.

Attach them to a range of surfaces including stone, concrete, wood, and metal for a versatile, easy-fit solution.

- Modern look
- Cost-effective solution
- Built in drainage channels
- Fixable to a range of surfaces
- Available in any RAL colours

Wall Mounted Handrail

Simple and elegant, our handrails are a hard-wearing alternative to traditional timber equivalents.

Add a contemporary addition to your home with premium-grade stainless steel.

- Hard-wearing & Long-lasting
- Premium grade stainless steel
- Satin finish
- Easy to maintain

Commercial Balustrade Systems

Of course, balustrade for your business property should provide safety. But it has the potential to do so much more.

Enhance the architecture and interior design, improve the flow of light and create eye-catching walkways for visitors. You can use our balustrade in almost any location too - particularly on mezzanines, terraces and balconies.

Contact us today to find out the options available for your business.

Case Study - Barrafinia Restaurant, London

This very modern restaurant is located in a trendy part of London, so required balustrade that complemented the main building and the wider district of Coal Drops Yard.

The end results were worth it. We installed the frameless glass channel system before the restaurant's grand opening and to the highest standards of safety.

SWR are experts in delivering projects on time, on budget and to your exact specifications. Please get in touch if you'd like us to take control of your balustrade project.

TRANSFORM YOUR HOME

We understand that improving your home is a big decision. That's why every market-leading product we supply and install are made to the highest standards.

Whether you're looking to renovate your home with expansive new bi-folding doors or planning a property extension with slim-framed sliding doors, our talented team will put your mind at ease.

ENTRANCE DOORS

Nothing says "welcome home" like a new front door. Not only do our doors look good, they're fully customisable and come with the best security too.

GARAGE DOORS

Choose from our extensive range of materials, colours and finishes to create a garage door that is truly unique for your home.

WINDOWS

Whether looking out or looking in, our windows are impressive from any perspective. Low maintenance, energy efficient and customisable to your specifications.

AWNINGS

Experience shade and shelter all year round with a patio awning from the world's finest manufacturers. Perfect for al fresco dining and relaxation, whatever the weather.

OUTDOOR CANOPIES

Create the ideal environment for relaxation. Featuring modern aesthetics and endless options for customisation, our outdoor canopies are a blend of form and function.

SLIDING DOORS

The perfect choice for maximum light and maximum space. Modern styles of sliding doors boast slim profiles, less framing and larger glass panels. Offering a fantastic view of the outdoors.

BI-FOLDING DOORS

Open up your home to the outdoors. Expert engineering and modern design allows you to sit back and enjoy the uninterrupted views.

PERGOLAS

Stylish and functional, a pergola will become the focal point of any garden. We offer a range of styles and colours to provide your ideal shelter.

GLASS HOUSES

Let the light flood in for an unobstructed view of your outdoor space. With a range of versions to choose from, weinor glass houses are a true extension of your home.

BBQ'S

Our luxury BBQ's offer a superior cooking experience that family and friends will love.

HEATERS

Keep you and your guests warm on those chilly evenings with the finest quality heaters.

PIZZA OVENS

Authentic pizza freshly cooked in minutes. An eye-catching focal point for any garden.

BECAUSE OUR HOMES ARE OUR WORLD

High-quality products and over 20 years of fitting experience means you can trust us with your most valuable asset.
